

Social Media, AI and Politics: An Immersive Workshop

What have social media and AI media done to our social and political life?

How do we untether ourselves and reflect on what binds us to social media and AI—each day and every instance—of this hypermediated attention economy?

In this immersive workshop, we will deep dive into one of the most important conversations of our time.

Where?
Berlin, London, Nairobi

When?
May, June 2026

Facilitators

Sahana Udupa

Ira Solomatina

Job Mwaura
